

# Voyager's Retreat 2018

Voyagers SS Class, First United Methodist Church, Boerne Texas  
Camp Caper, May 1- 3, 2018  
Main theme is **Artificial Intelligence**  
Prepared by Shaun Shaunfield 5/5/18

Finally, the day is here:

and Shaun arrives

First Stop, visitor Center: Where do we go?

Sign here: I promise not to get hurt and cause trouble.

And, let the eating begin.

We just finished our first meal and now Jamie shows us how the electronics works. Must have for the Frankenstein movie – you see, man created life (artificial intelligence), – understand?

Visiting and waiting for Session 1, about Frankenstein

Now that we have had our first dinner and snacks, Bill introduces the first session and we are off and running.

Each session begins with live music by Bruce and Joe – such talent we have among us.

The audience seems amazed at the music. Notice Larry with the harmonica.

The rest of the also class appreciates the music.

Larry (Dr. Larry Williams) begins the first session, Tuesday evening:  
**LOOKING AT THE MAN VICTOR FRANKENSTEIN MADE**

After breakfast Wednesday morning, everyone admired the cross in the south wall of the new dining hall. The yellow section in the center is a sundial. The shadow of a ball outside is projected on the various sections marked with the hour of the day. It only works if the sun is shining.

Work just seems to follow wherever you go.

Wednesday morning, Larry begins Session 2:  
**LOOKING AT THE BOY GEPETTO MADE** (Pinocchio)

We watched part of the movie Pinocchio.

We now have a trio.

Larry also plays the guitar.

The beginning of the group picture?

What a great looking group

Visiting and waiting to eat in the new dining hall.

Getting ready for the next session.

What idea does he have now?

I believe he is taking a picture over his shoulder

Enjoying the music  
(notice who took the previous pictures)

Visiting and waiting for the next session.

Time for visiting

And serious discussion.

Music before Session 3

Larry leads the discussion on Session 3:  
**LOOKING AT THE BOY AN ENGINEERING COMPUTER COMPANY MADE IN A.I.**

We watch a video clip of a very lifelike robot (still does not think)

Visiting and waiting for Session 4

Larry leads the last Session 4:  
**LOOKING AT THE MAN GOD MADE**

Special thanks to our guest: Dr. Larry Williams and his wife Linda  
(This photo is from last year, since I missed getting one this year)
